

Florida.—There is no section of the South which is adapted to a greater variety of valuable agricultural products than the cultivable parts of this new rising State. Sugar of excellent quality, Cuba tobacco, and it is believed coffee may be raised to advantage. Several of the tropical fruits are also abundantly produced. An excellent sample of Sea Island Cotton, raised on the plantation of Mr. William Hope, in East Florida, sixty miles from Cedar Key, has recently been sent us. It has a long staple, fine, silky and lustrous. The climate of Florida is mild and equable, and generally salubrious. Since the final termination of the difficulties with the Indians, a very considerable emigration thither is taking place.—N. O. Bulletin, Oct. 18.

**A Story about a Snake—not a Snake Story.**—Mr. J. G. Templeton and his brother Elam Templeton, both of Fredell County, killed a snake on the plantation of the latter, in June last, which had two heads. They were walking together through a corn field on the low grounds of Davidson creek, and were in the act of stepping over this singular reptile before they discovered it. They instantly drew back, and having procured a missile, struck it several blows on the head, and having bruised it severely, concluded they had killed the snake. Upon their approaching it, however, it offered battle from the other end of its body, and then for the first time, the idea of a double headed snake occurred to them. They killed it, and on examination found that it had two perfectly shaped heads, one at each extremity of its body, with eyes, mouth, and tongue in each, between which there was no perceptible difference, except that one was a little larger than the other. Its color black. We say naturalists about this odd serpent?—Carolina Watchman.

**Cotton.**—The total sales during five days, were 2962 bales at the following particulars: 830 bales at 8 cents; 521, 73; 206, 73; 72, 79-15; 460, 73; 107, 7-15; 486, 83; 111, 73; 182, 73; 72, 7; 19, 63; and 6 bales at 63.

On yesterday morning the accounts by the Great Western, from Liverpool to the 11th ult. were received, advising of a further decline in the Cotton market, with prices of a drooping tendency. After the receipt of the above, no disposition was shown by buyers to enter the market, particularly as no letters had been received—nevertheless, sales to the amount of 531 bales were effected, principally by one house, said to be at a further concession of 3/4 of the current prices of the week, thus establishing a decline of 3/4 from the highest point of prices prior to the arrival of the Hibernia's account on the 23d ult. The particulars of the sales yesterday, were as follows—233 at 73; 99, 73; 60, 73; 27, 73; 12, 53.

We necessarily omit quotations, as the above transactions are no certain guide how prices will eventually settle, after buyers make a more general appearance.

**Rice.**—The market continues in an unsettled state. During the fore part of the week holders showed an evident disposition to meet purchasers on somewhat easier terms than they had previously adhered to, in consequence of which some 500 bbls. changed hands during the first three days of the week, at prices ranging from \$4-15 to \$4-43, being a decline of about 1/4 on former asking prices—buyers however seemed no where anxious to operate freely, particularly as the receipts continued very limited. The accounts yesterday by the Great Western of a further general advance in the market on the other side, without particularizing the article of Rice was considered as rather unsatisfactory, and appeared to have no immediate consequence. For a lot of 150 barrels held the day before at \$4-43, was disposed of yesterday at the same price—this was the only transaction of the day.

**Rough Rice.**—The receipts of the week are 10,000 bushels, of which 6,000 have been sold, 2,000 at \$1 15, and 3,000 at \$1 22 1/2.

**Coffee.**—Somehow the market has lately been obtained by holders, particularly for a prime article. Sales of Rio of this description have been made in small lots at 8c.

**Molasses.**—At an auction sale of 75, hhd's, and 95 bbls. Cuba on the wharf, prices ranged from 23 to 26 cts. A small lot of New Orleans at private sale brought 32 cts. The receipts of the week are 95 hhd's, Cuba remaining almost unsold.

**Grain.**—There have been no arrivals of Corn, Oats or Peas. The market remains without change.

**Beans.**—This article continues very dull and saleable only in small quantities at our quotations.

**Lard.**—For this article there has been some speculative enquiry and from 600 to 600 kegs Western have changed hands during the week at \$4 a 83 cents.

**Salt.**—The receipts of the week are 2,000 sacks Liverpool, in sacks of superior quality and larger size than ordinarily imported—they are held at \$1.25. From stores sales are effected at \$1.10 a \$1.15.

**Cotton.**—The sales for the week are 3900 bales.

**Naval Stores.**—We are still without any arrivals of Turpentine, and consequently have no transactions to report; though, an advance on our present quotations has been offered, (probably to arrive), and refused. Spirits Turpentine, to arrive, further advanced to 65 cents, cash, with sales of 100 cases, but it is not quick at this rate; for small lots, however, to supply immediate wants, (there being very little here), considerably higher prices are obtained. For Tar, there is more demand, and we notice sales of 1200 bbls. North Carolina at \$1.85 a \$2 per bbl. Nearly all the Rosin now coming in was sold previously, and we have no previous transactions to report.

**Rice.**—Since the arrival of the last advices from Euro, there has been a little more activity in the market, but inquiries being for the better descriptions, of which the stock is very light, the transactions have consequently been moderate reaching only about 600 kegs, from \$5.57 1/2 for good sound to \$6.37 1/2 for the best at market, all cash. We vary our quotations in conformity with sales.

**FAYETTEVILLE MARKET.**—Nov. 1.

Cotton, yesterday, brought 63 cts., but the news by the Great Western may reduce it to 6 or 6 1/4. Flour still scarce, and would bring \$5.54 and \$5.54. Wheat \$1. Rye 80. Whiskey 40 to 45. Beeswax 27 1/2 cts. cash.—Carolinian.

**The Oregon Trade.**—The Cincinnati Chronicle says: "The last intelligence informs us that there are now two packets running between Oregon city and Honolulu, one of the Sandwich Islands. One of these is an American packet, and the other belongs to the Hudson Bay Company. This fact is the initial of one of the greatest commercial revolutions which the world has seen. Look at the map. Fix your points at Liverpool, Boston, St. Louis, Oregon city, and Canton. Then calculate the freight and time required by a bale of goods transported around Cape Horn to Canton. Then take the same bale of goods by steam-car from Boston to Oregon city, and then by steam-boat from Oregon to Canton! If the goods go from England, by Cape Horn, it will save ten thousand miles to take them across the American continent. If they go from the United States, there is a saving of two-thirds the whole distance! That the trade of the United States will take that course, provided the communication is by steam, no one can doubt. It is vain to talk about the Panama route, if you can go by steam to Oregon."

**THE SUBSCRIBER**

would take this mode of tendering to his friends—and friends in need they were—his deep and grateful thanks for the promptness with which they came to his assistance on the night of the fire. Living, as he does, at a distance from his Bar Room, had it not been for the disinterested kindness of his friends, he must have suffered deeply. Before, however, he reached the scene of action, his friends had removed every thing to a place of safety, and that too, so carefully that he believes he has not lost ten dollars in the world. For this he feels truly grateful.

**WILMINGTON MARKET.**—Nov. 6.

No rain has fallen since our last report. The rivers continue very low. Little produce coming in.

**NAVAL STORES.**—Some 3 or 400 barrels Turpentine arrived during the past week, which sold at different prices—on Monday last, some 500 barrels were sold at \$4 00, but since then, the price has receded, and on yesterday the actual price was \$3 50. We learn that one lot, to arrive, was sold at \$3 50, on yesterday. This is the last sale we have to note, and we quote the actual price to-day at \$3 50, and we will add, that the tendency is downward. Tur—the only sale we have to report was made on Tuesday last, at \$1 63. None in market. We quote as the market price, \$1 63 to \$1 70. **Spirits Turpentine.**—The activity in this article has considerably abated within the last three or four days. We have heard of no sales since our last report. We learn that distillers would be content with a lower market than a few days since. It is on the decline again, we think. Perhaps from 50 to 55c would be a fair quotation.

**TIMBER & LUMBER.**—But a few rafts of Timber have come to market since our last report. Enough, however, with what was already on the market, amply to supply the demand. Indeed, the article is rather dull, in consequence of the large quantity which came to market on the last large freet. Little change has taken place in prices. We have few sales to report during the past week. They were made at prices ranging from \$5 to \$6 50. **Lumber.**—Flooring boards, last sales \$13 50—fair quality. Scantling—little in market, last sales \$6. Wide boards—little or none in market, last sales \$7.

**BACON.**—Hams are worth 9 1/2 to 10c. Sides, 8 1/2 to 9. Shoulders, 7 1/2 to 8c.

**CORN.**—We have no arrivals to report. Selling from store, at 55c.

**GROUND PEAS.**—This article is beginning to come to market, and sales are easily effected at 70 to 75c. The last sale we have to report was made at the former market.

**RICE.**—This article is arriving in small quantities. The last sales of choice were made at \$4 75. We think that \$4 50 to \$4 75 is a fair quotation. **Rough Rice** is worth from \$1 09 to \$1 12 1/2. We heard a gentleman say that he had been offered the last mark, some days ago. The only sales we have to report were made at \$1 05.

**SHINGLES.**—Very little of this article coming to market—last sales country Shingles were made at \$2 75. We put the present price \$2 50 to \$2 75.

**STAVES.**—Two lots of R. O. dressed, brought \$17 and \$18, respectively, during last week—none on market, and would be in demand if brought down.
